

5th International Conference on Advance Care Planning and End-of-Life Care (ACPEL)

9–12 September 2015 in Munich, Germany

www.acpel2015.org

ACP – Key to Patient-Centred Care

Themes:

- **How to implement good quality ACP**
Understanding and optimising the processes and learning from successful programs all over the world
- **Research on ACP**
Program evaluation, current findings and future trends
- **Patient-specific challenges**
ACP in palliative care, oncology, geriatrics/dementia, chronic diseases, pediatrics and psychiatry
- **ACP in different settings**
Primary care, hospitals, nursing homes, hospice/palliative care

Speakers include:

- **Luc Deliens**, Brussels (B), EOLC Research Group, Ghent University and Frije Universiteit Brussel
- **Bud Hammes and Linda Briggs**, La Crosse, WI (USA), Respecting Choices
- **Agnes van der Heide**, Rotterdam (NL), Medical care and decision making at the end of life
- **William Silvester and Karen Detering**, Melbourne (AUS), Respecting Patient Choices

The purpose of the conference is to promote **advance care planning (ACP)** and **end-of-life care (EOLC)** from clinical, ethical, educational, research, legal, and policy perspectives.

Who should attend?

Researchers, doctors, nurses, policy makers, researchers, medical officers and directors, jurists, social workers and chaplains working in areas covering:

- End of Life & Palliative Care
- Policy Development
- Care of the Elderly
- Ethics and Spirituality
- Primary Care
- Critical Care
- Social Services
- Hospitals
